

My wife & I currently listen almost exclusively to K-LOVE, an FM translator. We value that we can receive commercial-free Christian music & information on a local broadcast. There is nothing comparable on the airwaves and we would be devastated if K-LOVE were to be displaced by an LPFM. K-LOVE aids local non-profit events by free announcements and helped us publicize an "Angels Among Us" event for brain tumor patients. Please do not give LPFM priority over FM translator services. We need our K-LOVE radio signal.
